BIO-MAT AMETHYST HEATING PADS

Provided by Promolife ♦ www.Promolife.com ♦ 888-742-3404 ♦ 479-442-3404 ♦ info@promolife.com

We guarantee you will love your Bio-Mat Amethyst Pad so much you will have to tell your friends.

The Bio-Mat is a unique medical device combining Far Infrared (FIR), Negative Ions and Amethyst Crystals to produce deep penetrating light energy and heat for a maximum sense of well being and a healing experience. While resting on the Bio-Mat you are receiving a molecular-level massage, increased blood and lymph circulation, maximized enzyme activity, superior detoxification and decreased acidity for a more beneficial pH balance in the body.

Benefits also include boosted immune function, rejuvenation of skin, reduction of stress, fatigue, pain and swelling, balancing metabolism and weight loss, and elevated energy and vitality along with an increased deep delta state of relaxation. The Bio-Mat can be used to achieve the benefits of a sauna, allowing more customized temperature regulation without the hazards of heating your head or the negative EMF exposure from traditional saunas or heating devices. The Amethyst Crystals produce the highest frequency of vibrational energy that the body can absorb, thereby promoting increased conduction and absorption of Far Infrared and Negative Ions.

The Bio-Mat represents the highest quality and comfort in a portable pad suitable for your home or clinic setting.

General Benefits of the Bio-Mat:

Romance to the Rescue: Uses gentle crystalline warmth that cradles you, while cool light pulses you all night long. Helps to harmonize, relieve stress and bring back romantic feelings.

Naturally Revitalizing: Helps to restore hormones to optimal functioning, pumping healthy blood into organs. Energizes bodily systems and releases happy endorphins.

A perfect insomnia remedy: Take a half hour mat nap before bed and you will sleep like a baby. Promotes deep rejuvenating sleep so you wake up refreshed.

The Negative Ions produced by the Bio-Mat help to:

- * relieve pain from arthritis
- * ease joint pain and stiffness
- * create a laxative effect, thus improving intestinal function and blood circulation
- * reduce high blood pressure
- * reduce anxiety and relieve tension
- * increase stamina
- * remove toxins
- * burn calories
- * relieve headaches by eliminating pain causing chemicals
- * ionize calcium and sodium minerals to alkalize the body

How are they made?

The materials of the Bio-Mat are heated to a temperature of 1,600° C to eliminate toxic ingredients. The result is a fine powder of 0.1 micron that is contained in the Bio-Mat. When the mud is heated, it emits numerous healthy Long Wave Infrared Rays. That's why it is also classified as biologically active soil. Natural Jade also produces numerous Long Wave Infrared Rays. These Rays vitalize the biological function of your cells, increase blood circulation, promote perspiration, relieve Neuralgia, backache, and arthritis pain, and eliminate toxins. The Long Wave Infrared Rays are good for relaxation and perform antibacterial functions.

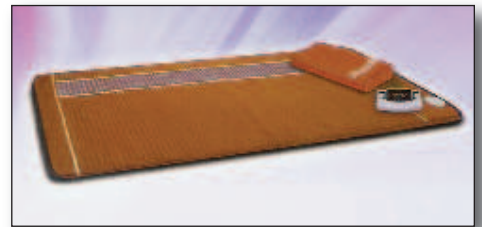

How hot do they get?

Unlike an electric blanket, these pads do not get hot when turned on. However, when you lie down on it, it warms the inside of your body and the part of the pad making contact with your skin gets warm. When any part of the pad gets higher than the selected temperature, the sheet current is cut off by thermal sensors distributed throughout the pad. It comes with an external control box where the AC is converted to DC and you can also adjust the desired temperature.

The Bio-Mat comes in several different styles and sizes:

The Professional Bio-Mat provides customers and patients with the ultimate in far infrared therapy. It is ideal for acupuncture, chiropractic services, dental offices, fitness, massage services, medi-spas, pain clinics, physical therapy, post-surgical recovery and waiting rooms.

Ask about our \$100 discount for professionals

The Bio-Mat Mini is light and portable for easy mobility and all around use. Includes a travel bag and 100% cotton washable padded cover. This is the perfect take-along for trips, to keep at the office or to share with a friend or family member who would benefit from using this therapeutic device and it is great to use in chairs. It is also the perfect size for children. Many of our customers have also purchased the Mini-Mat for their beloved pet. The Amethyst Bio-Mat Mini ships with a single control panel, travel bag and 100%

cotton quilted cover. Bio-Mat Mini is easy to take to your work area. Great for computer chairs, work spaces, meditation rooms, and lounge chairs. It gives you an instant energy boost and helps increase mental clarity, and creativity. It helps to restore your body's electrical energy, especially after a hard day's work. The Bio-Mat will also help to compliment other therapies such as Ionic foot cleanse and saunas.

King/Queen/Single Bio-Mat - These Bio-Mats lie on top of your home mattress. They allow your entire body to benefit from the far infrared and negative ion therapy. Larger sizes can be used by more than one person at a time. Simply lay it on your bed, plug it in, and prepare to relax and rejuvenate.
