## The BioElectric Shield is designed to help balance, renew and protect your energy from electromagnetic fields.

The BioElectric Shield with Earth Resonance Technology (ERT) is composed of a mixture of precision cut quartz and other crystals carefully arranged for protecting, strengthening and stabilizing your natural energy field. All BioElectric Shields are handcrafted and made in Montana. Each shield is approximately 1.125" in diameter and weighs half an ounce. The highest quality all natural, living crystals are used.

BioElectric Shields come ready to wear with a black satin cord. Gold and specialty chains are optional, but are chosen for size, proportion and strength necessary for the shield. All shields are waterproof and come in different levels of strength starting at the basic brass and progressively stronger up to the gold with diamond shields, our most powerful BioElectric Shield.

Wearing the BioElectric Shield will make you feel the way you do when you are on a peaceful, energizing hike. It's very effective at eliminating negative EMF energies around your person - a popular EMF neutralizer. You are full of energy and feel more positive, like you can conquer the world.

### How the BioElectric Shield Works

The BioElectric Shield actually magnifies or enhances your own body energy. When you are around negative people or you are in any type of artificial environment such as a shopping mall, office building, automobile or public transportation you will eventually feel drained and tired. Remember going shopping and before long you felt like going to sleep? The body's energy is depleted.

The BioElectric Shield takes your energy and will continually magnify it. When wearing the Shield you will feel less tired and most of the time you will feel more energized. Even when around negative people, you will feel less affected by them and often times feel happier. People who are negative that wear the Shield will also feel better and we have had reports that others around them who aren't wearing it have a better or more positive attitude towards them. The Shield seems to help people that are around those wearing it.

We have also had reports of animals such as dogs and cats acting more calm wearing the Shield. The earth is a ball of energy and the human body is well acclimated to this energy. This is why the BioElectric Shield is so effective. It contains earth drawn materials such as crystal rock, silver and gold.

On the following page you can find out about the types of Shields available, followed by a chart that can help you find which Shield is right for you.

## Types of BioElectric Shields:

(Listed from moderate to most powerful)

### All Brass Shields

This is an excellent multipurpose Shield, providing protection from all types of electromagnetic radiation as well as negative energy from people or places. This Shield is an excellent choice where price is more of an issue than appearance.

### Sterling Silver with Brass Tabs

The basic silver Shield provides a lifetime of substantial protection for most people. It strengthens and balances your energy, including your chakras, and deflects negative energy such as EMF or negative emotional energy. We offer several styles: Brass Tab Polished, Brass Tab Brushed Satin, Gold Tab Polished and Gold Tab Brushed Satin.

### Gold Tab, all Gold and Diamond Shields

Wearing a 14K Gold or Diamond Shield provides support in the emotional and spiritual aspects of the energy field. These Shields are simply at a higher energetic vibration. We are confident you will find that owning and sharing these will add an entirely new, positive dimension for you.

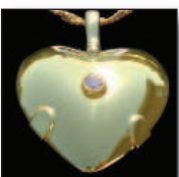

### 14K Gold Tab Shield

The silver Shield with 14k gold tabs more effectively spreads out the energy that is being generated by the crystal matrix. The placement of the five gold tabs is critical in performing this "expansion" of the energy. This Shield is 15-20% stronger than the brass tab model. It is recommended for people who are exposed to constant electromagnetic frequencies via a cell phone or computers. It is also

highly recommended for people sensitive to energy, especially emotional energy. The gold tab is a favorite of many computer programmers, sales people, therapists, energy and body workers, etc.

### All 14K Gold Shield

When you strive for high performance or life demands a lot of you, you'll want to go for the gold. The gold offers a finer, stronger translation of the crystal matrix. The wearer enjoys at least 50% more balancing and strengthening than the standard Shield. Many people wearing an all-gold Shield notice a wonderful opening, strengthening and balancing in the heart chakra. We recommend it to anyone who can make this investment. The return to the wearer is immense and immeasurable.

### All 14K Gold, Diamond Shield\*\*

This is the ultimate in support and protection. It is at least 100% more powerful than the all gold shield. An area where this beauty particularly sparkles beyond the other very potent Shields is in the area of supercharging a person's clarity, focus, knowing and sense of connectedness. For those who want the absolute in performance and protection, for those who want to clarify and increase the rate of accomplishing their life's purpose, the Diamond Shield will support you in achieving your destiny.

\*\*An all gold or gold tab Shield is highly recommended for those who feel they are sensitive to certain metals and want the ultimate in balance and protection. We've had a lot of people "move up" from a brass tab to a gold tab Shield after a few years and they've all reported feeling a big difference and the most noted changes are differences in energy and a heart centeredness. When we were doing trade shows it was always interesting to see how people reacted differently to the Shields. A lot of people would immediately tell us that they weren't interested in the gold tab as it was too expensive and they were perfectly satisfied with a brass tab. Then they would try them both on. We would often see their eyes light up, or their whole bodies would noticeably relax.

## Protection Levels

YOUR LIFESTYLE	LEVEL OF ENERGY PROTECTION RECOMMENDED	LEVEL OF PROTECTION AND ENERGY ENHANCEMENT	WHO USES THIS LEVEL?
<p>You are exposed to computer or portable and cell phones</p> <p>You want EMF protection for your children</p>	<p><b>Level 1 Protection</b> is a necessity for you if you live around technology- even if you are not using it.
