THERMOTEX FAR INFRARED PET BEDS

Provided by Promolife ♦ www.Promolife.com ♦ 888-742-3404 ♦ 479-442-3404 ♦ info@promolife.com

Thermotex Therapeutic Pet Beds can relieve your pet's pain, enhance healing and well being, and relax your pet.

Large Sherpa

Thermotex Therapy Systems deliver pain relief by increasing blood flow. Increased blood flow is accomplished by using infrared energy absorption, which is absorbed by the body to a depth of 6 cm or 2.36 inches. Infrared is a radiant energy source similar to the warmth felt from sunshine with no harmful rays.

As the infrared energy is absorbed, the blood flow and oxygen levels increase in the treated area. This results in deep penetrating warmth. This deep penetrating warmth delivers pain relief and assists with the elimination of toxins. Infrared is so safe, it is used to warm newborn babies in the hospital.

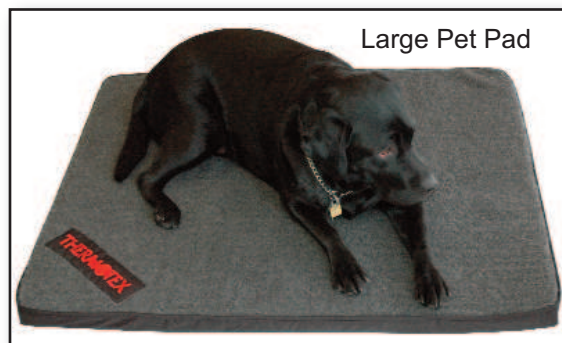

Thermotex Pet Beds have a Velcro opening for easy heat panel removal prior to washing the complete bed. Thermotex Pet Beds can also be used in your vehicle with the appropriate power inverter. Your pet can travel in style!

Thermotex Infrared Pet Beds are ideal for:

- ◆ Post surgery recovery
- ◆ Arthritis, bursitis, and strains
- ◆ Muscles or joints that are causing pain
- ◆ Animals who need extra warmth

Testimonials provided by the manufacturer

- ◆ The bed is like a day at the spa. She is very relaxed and is much more mobile.
- ◆ My cats and French bull dog loved the heat!
- ◆ My dog seemed more relaxed after using the bed.
- ◆ My pet became more active after using the bed.
- ◆ My older cat became more active and playful after using the bed. She was able to jump more easily.
- ◆ My cat warmed both sides and even her back with the bed and loved it! Very Zippy after using the bed.
- ◆ Our pet is much more nimble when he rises from the bed.
- ◆ My cat used the bed constantly and I noticed that she was not limping as she did prior to using the bed.
- ◆ Our pet literally lived in the bed and used it almost constantly.
- ◆ Our 20 year old cat has trouble moving and after using the pet bed, was jumping up on the furniture again!
- ◆ Our pet loved the bed and actually was snoring when she slept.
- ◆ My 16 and 15 year old cats loved the bed and literally used in 24/7.
- ◆ My dog used the bed after major surgery and used it constantly for the 5 days after the surgery. The bruising was gone after 4 days and he healed very well. His arthritis doesn't seem to bother him as much either.
